NET VOLUME: 1 U.S. GALLON (3.79L) NET WEIGHT: 9.7 LBS (4.4 KG)

WEST COAST
HORTICULTURE

DIRECTIONS

SOIL AND SOILLESS MEDIUM

Shake well before each use.

Mix 5-10 ml per gallon of water.*

- Use solution within 24 to 48 hours of mixing.
- Will work with most drip irrigation systems. Flush drip lines with water after each use to avoid clogging.

Do not use this product undiluted or add directly to any concentrated fertilizer.

**These are general guidelines and may be adjusted as needed.*

NOTE: Store at room temperature. User assumes all risk when using this product. Not for human consumption. Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>
